

Environmental Education Foundation of Soil & Water Conservation In New York State

Supporting Environmental Awareness
Through the Funding of Educational Programs

2010 Annual Report

The Environmental Education Foundation provided funds to programs designed to increase environmental awareness in today's youth. Funds are focused at the local level where there is the most impact. One such effort is the NYS Envirothon which is designed to test students' knowledge and understanding of natural resource issues within New York State and cultivate their desire to learn more about our natural resources and environmental issues.

The spirit of competition stimulates students' interests in environmental concerns and motivates them to further develop their skills and grow into environmentally-aware, action-oriented adults. In 2010, \$ 9,500 of foundation funds went to supporting the NYS Envirothon.
